for decontamination.*

## MED SPRAY

A rapid disinfection of rooms by air, within  
everyone's reach!

Medtra commercializes and develops products as well as technology which act effectively on any kind of infection with the aim of guaranteeing the best possible hygiene for everyone.

Medspray is a pulverizing appliance by air which disinfects rapidly rooms and surfaces. This is a hydrogen peroxide product.

## Technical Informations

The Medspray is a lightweight, ergonomic device. It can disinfect volume of 5m<sup>3</sup> to 165m<sup>3</sup>. The diffusion time is 11 min to 50 m<sup>3</sup>. Voltage: 230V or 115V. GMDN: 58215

## Applications

Medspray can be applied in different fields ::

- Pharmaceutical industry
- Food Industry companies
- Medical and Paramedicalsector

## Characteristics

- The Medpray concept permits a homogeneous disinfection of surfaces without corrosion.
- Realized tests: Pseudomonas aeruginosa, Staphylococcus aureus, Escherichia coli, Aspergillus niger, spores de Clostridium difficile, Penicillium SPP, Norovirus, bacillus Stéarothermophilus
- In addition to the hydrogen peroxide which enables surface disinfection, the company MEDTRA may provide additional products that can be used in the removal of odors.
- A small amount of product is used (6.6 ml/m<sup>3</sup>). Digital programming volume of the work piece avoids overuse of product.
- For the safety of users, the Medpray device is triggered after 90 seconds.
- An ergonomic trolley transportation can be provided with the unit
- Ability to customize the device according to the quantities

## Benefits

- ✓ No humidity on treated surfaces
- ✓ No corrosion
- ✓ Effective against bacteria, viruses, spores, fungi
- ✓ Economical (6,6 ml of product per m<sup>3</sup>)
- ✓ Rapid and Easy to use
- ✓ Rapid operational availability
- ✓ Easy and rapid change of the product cartridge
- ✓ Ecological and environmentally friendly
- ✓ Ergonomic
- ✓ Traceability of the procedure with specific device (Hycontrol)
